

Colouring In

Below is the mobius loop – if you see it on an object it means that it can be recycled!

Why don't you print this page and colour-in the recycling symbol and tell others what it means!

Here are some aluminium cans to colour-in. Do you know how these are recycled and what they could be made into?

Below are some glass bottles to colour-in. Did you know that by recycling ONE glass bottle enough energy would be saved to

- power a 100 watt light bulb for nearly an hour!
- power a computer for 25 minutes!
- power a colour tv for 20 minutes!
- power a washing machine for 10 minutes!
