

Surrey Resident Scheme

What is it?

From Monday 5th October 2009 you may be asked to prove you live in one of **Surrey's 11 districts or boroughs**, at your local Community Recycling Centre.

The sites affected are -

- Warlingham (Bond Road)**
- Caterham (Chaldon Road)**
- Sunbury (Charlton Lane)**
- Epsom (Blenheim Road)**
- Bagshot (Swift Lane)**

Why is this happening?

Surrey's Community Recycling Centres (CRCs or 'Tips') are paid for by Surrey residents who can use the sites for free to dispose of their household waste and recycling.

Some CRCs in Surrey are also used by residents from other neighbouring councils. This extra waste costs Surrey taxpayers half a million pounds per year to dispose of.

However, some neighbouring councils do not allow Surrey residents free access to their own sites. Unfortunately Surrey County Council has been left with no option but to do the same thing at certain sites.

What do I need to do?

From Monday 5th October 2009, if you use any of the affected sites, you will need to bring one of the following -

- Your driving licence
- This year's council tax bill
- A recent utility bill

You will need to bring one of these to prove that you live in one of the eleven districts or boroughs in Surrey.

Staff at the site will ask to see a copy of your proof of address when you arrive, so please have it to hand.

What if I don't live in the 11 Surrey districts or boroughs?

If you do not pay your council tax to Surrey and you usually visit the affected sites, please consider driving to your own authority site where you may dispose of your waste and recycling for free.

Kingston recycling centre

Croydon recycling centres

Windsor & Maidenhead recycling centre

Bracknell Forest recycling centres

Richmond recycling centre

Sutton recycling centre

Merton recycling centre

Hounslow recycling centre

Hillingdon recycling centres

If you really do need to use a site in Surrey then please visit either the **Sunbury** or **Epsom** sites where your waste and recycling can be weighed and charged for at standard waste disposal rates.

Our sites are operated on our behalf by our contractor, **Surrey Waste Management**.
