I appreciate the policy of the neighbourhood plan and would like to be kept up to date with its progress. My only comment would be in connection to crossings. I really do like the idea of pedestrian islands (in the middle of the road) as a way of both slowing traffic and facilitating pedestrian crossing without the need for noisy pedestrian or pelican crossings.

Any Comments?

We are very lucky to have such a peaceful and beautiful area to live. Any measures to enhance and protect this area would be of great interest to me as I plan to be here a long time.
