

MEDICAL ASSESSMENT

ASSOCIATED WITH AN APPLICATION FOR A LICENCE TO DRIVE A HACKNEY CARRIAGE OR PRIVATE HIRE VEHICLE

Notes for the Applicant

This medical examination now includes a vision assessment that must be filled in by a doctor or optician/optometrist. Some doctors will be able to fill in both the vision and medical assessment sections of the report. If your doctor is unable to fully answer all the questions on the vision assessment you must have it filled in by an optician/optometrist. If you do not wear glasses to meet the eyesight test standard, or if you have a minus (-) eyesight prescription, your doctor may be able to fill in the whole report. If you wear glasses and you have asked a doctor to fill in the report, you must take your current prescription to the assessment.

The Council is not responsible for any fees that you may pay to a doctor and/or optician/optometrist and/or other medical specialist, even if you are unable to meet the Group 2 medical fitness to drive standard.

**You must take a form of photographic identity to the examination,
for example your passport or DVLA driving licence**

- All new driver applications are subject to a full Group 2 Medical Assessment completed by a GP at the surgery where the applicant is registered.
- You must produce this with this application if your medical is due. Medicals are due; On application and at age 45 and thereafter every five years until the age of 65. At age 65 and thereafter on an annual basis.

- a driver who has an existing condition which develops (and may affect their ability to drive)

is required to inform the Taxi Licensing Section within 7 days. In these circumstances a further medical may be required. Licence renewals will not be processed where a Medical Assessment Form has not been received.
