Runnymede 2030 local Plan

Thank you for your letter of the 16th January referring to the above Plan.

In previous letters I have stated that all I would suggest to the planners is to consider not only the present residents of Runnymede but any future developments that might take place.

The green belt was initially set out to give people space, green places and a pleasant environment to live in. I think that this should be taken into account when new developments are built so that new residents have space and green places to enjoy. To pack people into crowded developments is, I think, risible.

You have to think, would you, yourself, like to live in the houses you hope to build? Best wishes,
